

“Youth employment policy” Conference

8th of June 2022

Business & Science Poland Conference Centre

Rue Belliard 40, Brussels + online

Over 10 million young people are neither in employment nor education (NEET) in the European Union.

How can we help them find jobs?

We were looking for an answer to this question in Italy, Hungary, Poland, and Spain. We will present our results and discuss:

- which public programs are helpful and which are costly and ineffective,
- why reaching out to young jobless people is such a challenge and what should we do about that,
- why young women have worse employment opportunities and how to strengthen gender equality.

The Youth Guarantee has helped millions of young people across the EU in recent years. However, not all jobless people could use it. Should we cover all vulnerable individuals with the new EU initiative ‘Bridge to Jobs’, we must find a way to improve public programs.

We would be delighted to have you present at this conference.

We should be glad if you could confirm your attendance [on-site](#) or [online](#) by May 24th.

Yours sincerely,

Iga Magda

Institute for Structural Research (IBS)

Vice president of the board

The *Youth employment partnerSHIP - evaluation studies in Spain, Hungary, Italy and Poland* project benefited from a 1,8 million € grant from Iceland, Liechtenstein, and Norway through [the EEA and Norway Grants Fund for Youth Employment](#).
